

Public Works Notice

**DID YOU
KNOW?**

Lithium batteries can **ignite quickly** in the landfill, and once burning they are **very difficult to extinguish.**

That's why it's so important to keep e-waste separate from household garbage and dispose of it properly.

Battery Collection Boxes are available at:

- Provincial Building
- Fairview High School (FHS)
- The Landfill

Let's work together to keep our community safe and our environment clean!
